***We provide excellent service and offer solutions as per your needs***

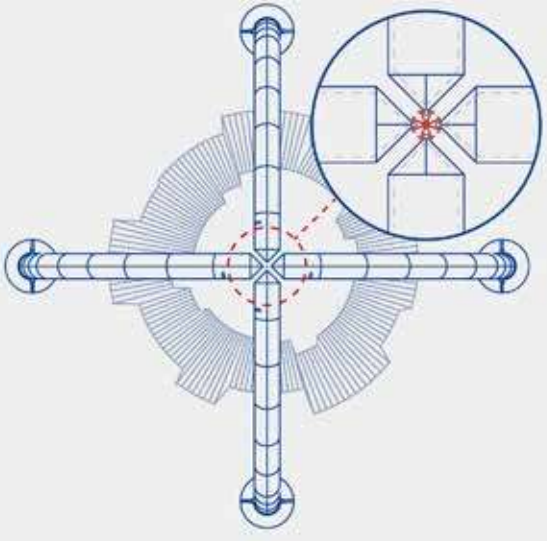

# MODULAR EXPANDABLE

- Modular design
- Portable & versatile
- Easy assembly

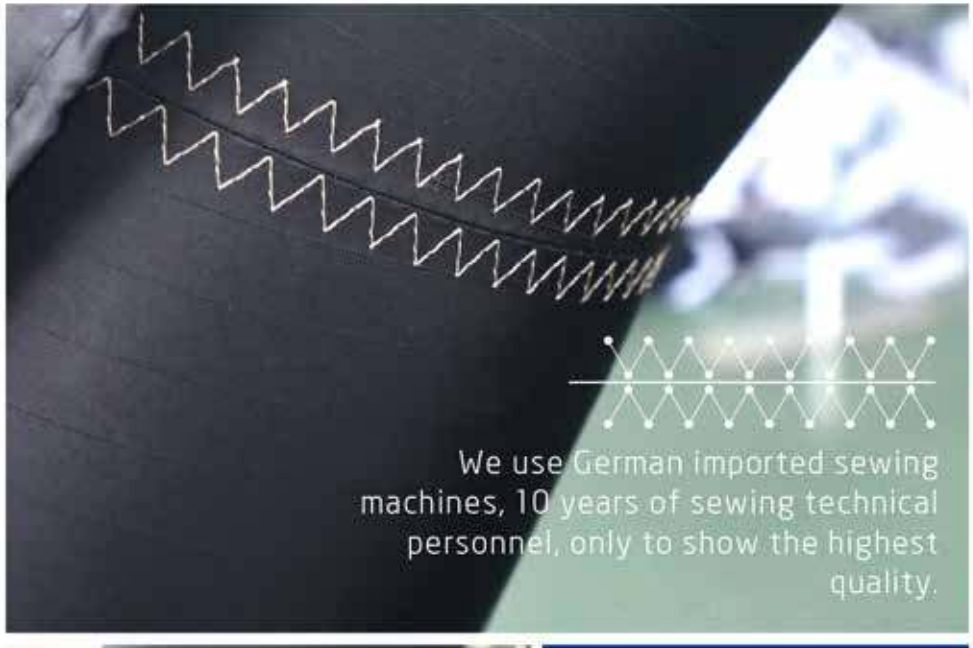

- Canopy, fullwall, window wall, door wall, awning use **YKK zippers.**

## INDEPENDENT - RELIABLE -STABLE

Our inflatable tent features stability and reliability with 4 independent air valves.The tent is set up in under 5 min-utes.

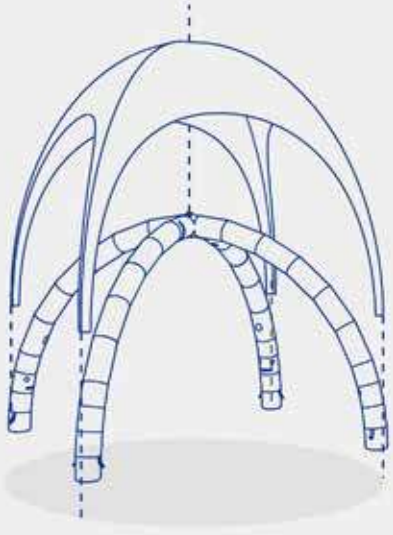

We use German imported sewing machines, 10 years of sewing technical personnel, only to show the highest quality.

***Explosion-proof system***

Each support leg uses an independent safety valve, so there is no bladder explosion, damage, please rest assured that you use.

## REPLACABLE CANOPY

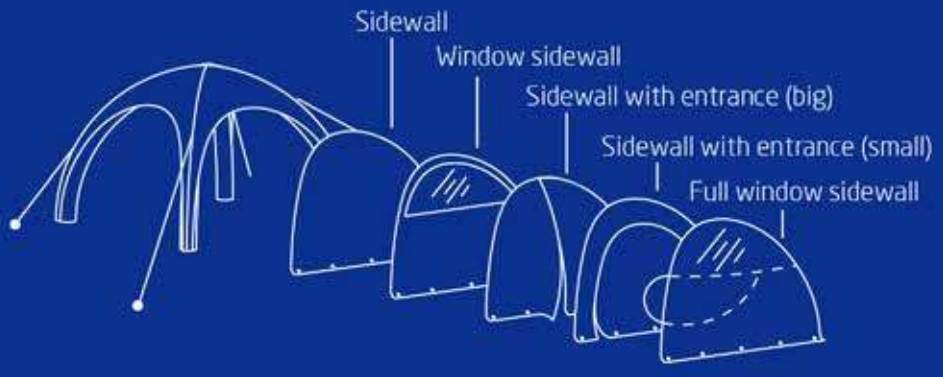

We use YKK zippers, the canopy is properly stitched by the zippers and theedge stitching, during assembly process, it is easy to be replaced, easyassembly and disassembly.

## MODULAR DESIGN

Enables you to connect all the similar sized tents together,easy reconfiguration and exten-tsion,creats a large lounge atmo-sphere.

## VARIOUS SIDEWALLS TO SELECT

We have 5 different functions of the fence, you need to use according to the needs of the mix. All fence can be selected with YKK zipper, bidirectional use, fence and can be printed on both sides.

3MM TPU
Sealed tubes,Good material, ensure better quality.

The inflatable support tube is made of the core material-high strength polyester cloth, which has the advantages of high hardness, no deformation, wear resistance, imitation rain water, light weight,( You can provide pantone color number, we can carry out heat transfer processing.)

We can provide different wattage and different national standards of air pump

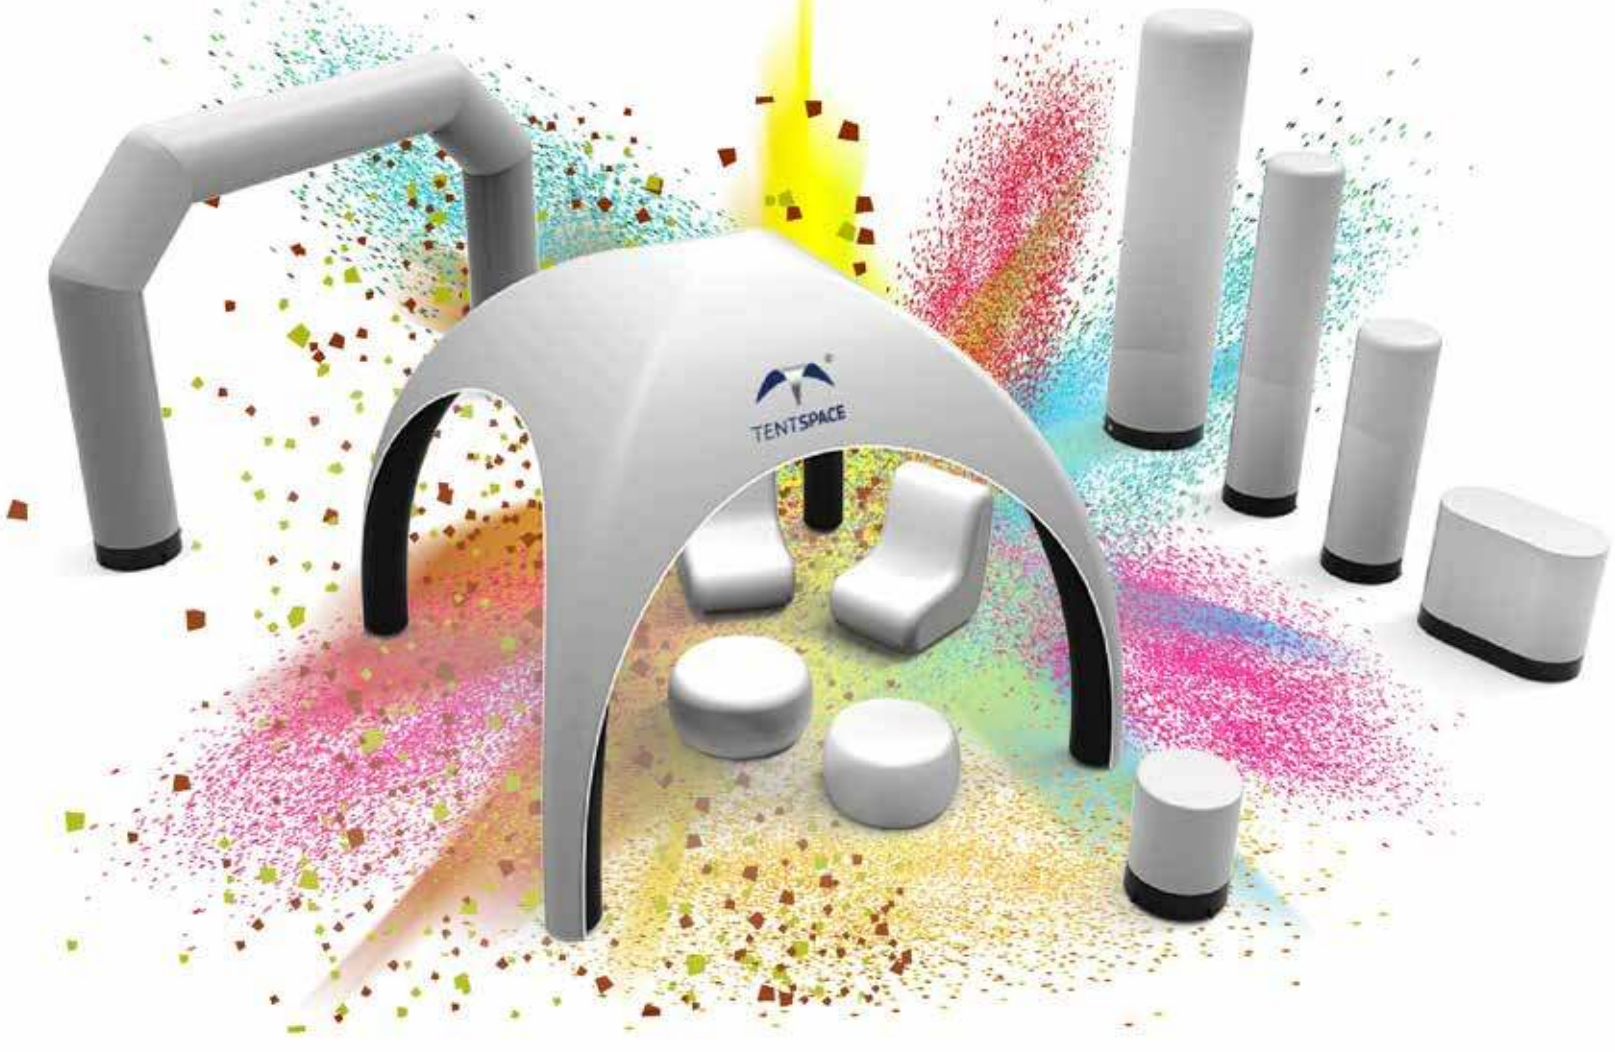

The bottom uses 3MM-PVC wear-resistant cloth, and 6MM rubber pad, with anti-wear, anti-puncture, waterproof advantages. (And has a color customizable selection.)
